**2010-2011 thru 2013-2014**

***NMAA Preliminary Alignment and Classification Proposal  
Approved by the Board of Directors on December 4, 2008***

NMAA Member schools are encouraged to provide positive and negative written feedback to the NMAA. Please provide solutions to issues that you perceive as problematic. Your written feedback should be e-mailed to the following NMAA staff members no later than Friday, February 27, 2009:

**Gary Tripp** (Executive Director) [gtripp@nmact.org](mailto:gtripp@nmact.org)

**Mario Martinez** (Associate Director) [mmartinez@nmact.org](mailto:mmartinez@nmact.org)

**Sally Marquez** (Associate Director) [smarquez@nmact.org](mailto:smarquez@nmact.org)

***Below is an overall summary of this preliminary proposal:***

- Enrollment numbers in grades 8-11 with all Alternative School students counted as part of a school's enrollment figures. 2008-2009 Forty Day numbers were used, but Eighty Day numbers will be used to adjust school's actual enrollment for the next block. Some schools have estimated enrollment numbers because of their school being relatively new and not having all grades at the present time.
- Hard numbers will be used to determine classification of schools dependent on each sport. Below is a summary of the number of classes and hard numbers in each particular sport:

***Major Points Concerning This Alignment Proposal:***

- Once a finalized alignment document is approved, it will be for a four-year block to add consistency and longevity to this process (2010-2011 thru 2013-2014 school years). A process will be established to move schools during the four-year block due to a large increase or decrease in the member school's enrollment figures.
  
- The actual 80-Day enrollment figures from this year (2008-2009) will be used to place schools in a classification. All of these figures are generated via the PED (New Mexico Public Education Department).
  
- For schools that do not have actual 8<sup>th</sup> grade enrollment numbers the following was used to generate the figures: Enrollment in the 9<sup>th</sup>, 10<sup>th</sup>, and 11<sup>th</sup> grades were added and divided by 3 to generate an appropriate 8<sup>th</sup> grade figure.
  
- Alternative school numbers in grades 9-11 were used excluding 12<sup>th</sup> grade numbers. In school districts such as APS (Albuquerque Public Schools) the total number of alternative school students were added and divided by 13 APS High Schools to determine an approximate alternative student enrollment.
  
- This proposal, if implemented, will result in some schools moving up in classification, while others may move down in classification.

- An additional class will be formed in Basketball and Volleyball to allow the very small schools, with an enrollment of less than 70 students, a better opportunity to possibly experience success in these sports. It will be called “Class B.”
- The actual qualifying system, format and procedures will be determined during the 2009-2010 school year after the actual alignment has been determined. This will be done by particular class and sport. This is the purview of the NMAA Board of Directors.

***Summary and Explanation of Alignment and Classification:***

- The decision to use grades 8-11 and Alternative Student enrollment figures was based on the fact that using grades 8-11 provides a better picture of what a school’s enrollment truly represents. All public schools receive funding for regular and alternative type students thus making alignment and classification a fair process based on New Mexico’s funding formula.
- Schools were clustered in as much as possible based on their enrollment figures whereas schools with similar enrollment figures (not more than twice as many) were placed in a classification in the major sports.
- Geography was a major contributor based on trying to keep costs down, travel time down and the loss of school time at a minimum.
- Establishing a minimum of four teams in a district was also a top priority to help with scheduling particularly during the district regular season. This will also help the seeding/selection process.

***Alignment and Classification Process:***

The NMAA Board of Directors approved the following process for the NMAA Alignment & Classification 2010-2011 thru 2013-2014 at the October 1, 2008 meeting.

1. The NMAA Executive Director in conjunction with the NMAA staff will develop the procedures for the next alignment and classification. (2010-2011 thru 2013-2014) (Fall of 2008)
2. The NMAA Executive Director and staff will develop recommendations and potential alignment proposals for the Board of Director’s review at their December meeting.
3. The recommendations and proposals approved by the Board of Directors at their December meeting will be posted on the NMAA website and member schools will be asked to give feedback via email to the NMAA.
4. The alignment proposals will potentially be adjusted based on the member schools feedback. (February 2009)

5. The Board of Directors will vote on a preliminary version of the alignment prior to member school appeals. (March 2009)
6. Member schools have an opportunity to appeal to the NMAA Board of Directors. ( June 2009)
7. NMAA Board of Directors will vote and finalize the alignment for the four-year block 2010-2011 thru 2013-2014. (June 2009)
